Stock and factory supply from our own warehouse in Yiwu, China

PRODUCT CATALOGUE

Products, specifications and OEM/ODM services - 2026 edition

Anze Trading Co., Ltd.

Stock lines are bought outright and held in our own 50,000 m2 warehouse in Yiwu, so we check them before they are ever offered to you. Made-to-order lines are inspected at the partner factory against a checklist you help set. Faults found at that stage cost far less to fix than faults found in your warehouse.

LUMEMOTO

All-in-One Solar Street Light 60W

YWA-SL-60 | Outdoor & Street Lighting | OEM & ODM

60W integrated solar street light, motion sensor and remote, 2-3 day backup

A complete street light in one housing: monocrystalline panel, LiFePO4 battery, LED module and controller in the same unit. No trenching, no cabling, no electricity bill. This is the size most buyers in West and East Africa order for compounds, markets and village roads, and it reorders well because the housing and battery do not change from batch to batch.

TECHNICAL SPECIFICATION

LED power	60 W
Solar panel	Monocrystalline, 6V 25W
Battery	LiFePO4 3.2V 30Ah
Luminous flux	6,000 lm (150 lm/W)
Backup	2-3 overcast days
Protection	IP65, die-cast aluminium housing
Control	PIR motion sensor plus remote
Mounting	Top or side bracket, 4-6 m pole
Carton	2 pcs / carton

Commercial RO Water Filter 400GPD

YWA-RO-400 | Water & Pumps | OEM & ODM

400 GPD reverse osmosis machine on a stainless frame, 1,500 L per day

A framed reverse osmosis machine with a booster pump and two 200 GPD membranes, built for bottled water shops, restaurants, clinics and schools. In Mexico and across much of West Africa this is bought as production equipment rather than a household gadget, and every machine sold creates a cartridge customer for years.

TECHNICAL SPECIFICATION

Capacity	400 GPD, about 1,500 L per day
Membrane	2 x 200 GPD RO elements
Pre-filters	PP 5 micron, GAC, CTO carbon block
Booster pump	220 V 50/60 Hz (127 V 60 Hz on request)

Twin Tub Washing Machine 10kg

YWA-WM-10 | Home Appliances | OEM & ODM

10 kg wash, 6 kg spin, fills from a bucket, 220V or 127V

A plastic-body twin tub that fills from a bucket and drains by gravity, so it works in houses without a pressure water line - which is most of the market outside the big cities. One container is over USD 12,000 of goods and the product survives rough handling far better than a front loader.

TECHNICAL SPECIFICATION

Wash capacity	10 kg
Spin capacity	6 kg
Body	ABS plastic, rust free
Motors	400 W wash, 160 W spin
Water feed	Bucket fill or hose, gravity drain
Timers	15 min wash, 5 min spin

Split Air Conditioner 1.5HP Inverter

YWA-AC-15 | Home Appliances | OEM & ODM

12,000 BTU wall split, inverter compressor, R410a, 220V or 127V

The standard bedroom and small shop unit in both of your markets: 12,000 BTU covers a room of 15 to 20 square metres. The inverter version costs a little more and cuts the customer's power bill, which is the argument that closes the sale where electricity is expensive or rationed.

TECHNICAL SPECIFICATION

Cooling capacity	12,000 BTU / 1.5 HP
Compressor	Inverter rotary
Refrigerant	R410a
Energy class	A++ (SEER 18 equivalent)
Noise	26-38 dB indoor

Generator Service Kit (Filters, AVR, Plug)

YWA-GK-01 | Spare Parts & Consumables | OEM & ODM

Air, fuel and oil filter, spark plug and hose, for 2-20kVA sets

The consumable that follows every generator you sell. Whoever buys a set from you needs filters within six months, so this is the cheapest line to add to a container and the easiest repeat order in the whole power range. Under two kilos per kit, so twenty kits take the space of one generator.

TECHNICAL SPECIFICATION

Contents	Air filter, fuel filter, oil filter, spark plug, fuel hose, clamps
AVR	Available for 5-20 kVA sets, quoted separately
Fitment	Petrol 2-6 kW and diesel 10-20 kVA, matched to your engine list
Packing	Polybag inside a printed box

OEM & ODM SERVICES

Private label & branding

Your logo on the product, the colour box, the manual and the master carton. Artwork proofed within 24 hours.

Specification matching

Send a photo, a sample or a competitor link. We find the closest match in the market and quote the alternatives.

Custom tooling

For a genuinely new item we manage the mould project at the factory: DFM review, T0 and T1 samples, and your sign-off before mass production.

Category building

We help you decide what to put in the container. Tell us the market and the price points and we will propose a range that makes sense together.

Compliance coordination

Test reports, declarations of conformity and market-specific certificates, arranged per order and per destination.

Samples & prototyping

Stock samples in 48 hours, customised samples in about a week. Sample cost is refunded against your first bulk order.

ORDER PROCESS

01 Enquiry & requirements

Send your target market, the categories you want and your price points. We confirm feasibility and flag anything that cannot be sourced within budget.

02 Sourcing & quotation

We walk the market, price each line against several suppliers and come back with options at different cost points - not a single take-it-or-leave-it number.

03 Samples & approval

You approve the sample, the artwork and the packaging before anything is produced or bought in volume.

04 Order & inspection

We place the orders, follow them with each supplier, and inspect the finished goods against an agreed checklist before packing.

05 Warehouse, consolidation & loading

Stock is pulled from our own warehouse and made-to-order goods arrive from the partner factories. We consolidate, re-palletise if needed and load, with photos of the full container.

06 Documents & after-sales

Invoice, packing list, certificate of origin and test reports, then sea, air or DDP delivery. Spare parts and claims support after arrival.
